2010 Skeet League

***Eye and ear protection
required at All Times.***

Come join us for the 2010 Skeet League. Shooting will be held on Tuesday evenings *starting @ 5:30 p.m.* The event is open to both members and the public

So what is this and how does it work?:

In 1920 in the town of Andover, Massachusetts, a small group of upland game hunters took to shooting clay targets as a means of practicing their wing shooting. As friendly rivalries started to develop amongst the group, a uniform series of shots were developed to keep the competition fair and even for all. It was from this crude beginning that the modern day version of skeet shooting developed into what is now an international sport practiced by hunters and non-hunters alike. The word "skeet" is derived from the Scandanavian word for "shoot."

For Score:

Stations 1 and a2: High house single; Low house single; High house/Low house pair
 Stations 3, 4 and 5: High house single; Low house single.
 Stations 6 and 7: High house single; Low house single; Low house/High house pair.
 Station 8: High house single; Low house single.

The 25th shot, completing the round, is taken immediately after the first miss or with 24 consecutive targets broken as a second single target at low house 8.

Why should I do this? To help you find out why you are missing the birds in the fall. Come on down to get some help. Meet new friends, and some of your neighbors, to see what shooting is all about.

- Want to find out more about us? This is a great way for existing members to meet new people, prospective members to participate and the public, interested in shooting, to learn more about us.
- Prizes for 1st, 2nd, and 3rd place are awarded at the end of the league along with a banquet held at our club house.

2010 Dates:
